## Talk to Your Local Oxygen Supplier

Captive Technologies was founded last year by Ed Ratke, who also started Sequal Technologies, manufacturer of the Eclipse Portable Oxygen Concentrator. The new company offers the O2 Talon™, a tool for separating oxygen tubing from connectors, tanks or concentrators.

The retail price is \$17.95. They also offer the Bellhop™, a lightweight oxygen carrier that can accommodate all popular cylinder sizes and is carried with a shoulder strap as a backpack, or in a “briefcase” mode.

On the horizon is a device to help you from tripping over the oxygen tubing in your house! The company offers these new products through your local oxygen supplier. For more information, visit [www.captive-technologies.com](http://www.captive-technologies.com) or call 1-619-660-9100.
